

Product data sheet

GPD(A)/(G)/60/V2A/EPDM
1x(D)

Rubber press seal with 60 mm EPDM rubber blank

- Gas- and waterproof for pressurized water
- Rubber blank with 60 mm
- Pressing the rubber by tightening the clamping nuts
- Also available as split version
**GPD(A)/G/60/V2A/EPDM
1x(D)**

Material specifications:

Metal press plates (V2A or V4A), rubber blank (EPDM), threaded bolts and nuts (V2A or V4A)

Test certificates:

- Tested according to FHRK standard 20/30/40/60 for pressurized water
- Pressure test LGA Nuremberg for the GPD150/G/60/V2A/EPDM

Version:

Advantages and benefits:

- Easy installation due to precision fit dimensions
- Durable and reliable sealing of cables and pipes even under high load cases (radial load approx. 200 kg and 10 m water column)
- In split version also possible for subsequent assembly
- Radon tightness
- Use in core drillings within a concrete construction made of WU concrete stress classes 1 and 2 or on-site lining pipe

Product name	Description
GPD(A)/(G)/60/V2A/EPDM 1x(D)	(D) = Outer diameter of the cable or pipe (G) = if split version desired
