BKD90-E-ZS/HSI/V2A/EPDM

(Z)x(D) or

BKD90-E-/HSI/V2A/EPDM

(Z)x(D)

BKD 90 system insert for HSI 90

## Advantages and use:

- Ideal system insert for mounting in bayonet cable entries HSI 90 from Hauff-Technik
- High flexibility in adapting onion cutting inserts to cables and pipes
- Press plates adapted to bore pattern
- Simple fixing in bayonet flange sleeve by means of articulated spanner (GSS) via mounting holes in the press plates

## Technical details:

- gas- and waterproof up to 2 bar
- Metal press plates 5 mm
- Threaded bolts and nuts M6
- Special rubber probe (25 mm wide)
- Possible onion slices (4-20 mm or 4-25 mm)
- Pressing of the rubber by tightening the clamping nuts

## Material specification:

Pressed metal plates (V2A or V4A), rubber blanket (EPDM), threaded bolts and nuts (V2A or V4A), onion cutting insert (EPDM)

## Variation:

Productname	Number of cables/pipes	Cables/pipes Ø mm
BKD90-E-ZS/HSI/V2A/EPDM 3x(4-25)	0-3	4-25
BKD90-E-ZS/HSI/V2A/EPDM 5x(4-20)	0-5	4-20

Productname	Maximum assignment different Ø possible, e.g.
BKD90-E-/HSI/V2A/EPDM (Z)x(D)	3 x Ø30 mm oder 5x Ø23 mm oder 9 x Ø17 mm
